Spectacular Bodies Martin Kemp, Emeritus Professor of the History of Art Martin Kemp, Marina Wallace, 2000-01-01 Illustrated and with essays by Martin Kemp, *Spectacular Bodies* reveals a new way of seeing ourselves.--BOOK JACKET.

Human Survival and Consciousness Evolution Stanislav Grof, Marjorie Livingston Valier, 1988-01-01 In addition to the apocalyptic prospect of global nuclear destruction, there are other dismal scenarios involving resource and environmental issues that are less imminent but still serious in the long term. Past analyses, seeking remedies, have focused on symptoms rather than causes. They represent extensions and expressions of the same philosophies and strategies that created these situations. This book brings a fresh and optimistic perspective to the problem area. It explores modern consciousness research and transpersonal psychology for practices that accelerate the development of consciousness. It covers a wide range from laboratory techniques of experimental psychiatry, transpersonal psychotherapies, and Jungian psychology to the Oriental and Western mystical traditions.

Nature Inside William D. Browning, Catherine O. Ryan, 2020-10-09 Written by a leading proponent of biophilic design, this is the only practical guide to biophilic design principles for interior designers. Describing the key benefits, principles and processes of biophilic design, *Nature Inside* illustrates the implementation of biophilic design in interior design practice, across a range of international case studies - at different scales, and different typologies. Starting with the principles of biophilic design, and the principles and processes in practice, the book then showcases a variety of interior spaces - residential, retail, workplace, hospitality, education, healthcare and manufacturing. The final chapter looks 'outside the walls', giving a case study at the campus and city scale. With practical guidance and real-world solutions that can be directly-applied in day-to-day practice, this is a must-have for designers interested in applying biophilic principles.

The Ultimate Journey Stanislav Grof, 2006 Beyond personal history and archetypal themes, a comprehensive psychology must also address the fundamental significance of birth and death. Stanislav Grof, M.D., renowned for his pioneering contributions regarding the psychological and spiritual aspects of the birth process, now adds invaluable insights from more than half a century of research and personal discovery into the experience of death and dying. Dr. Grof distills teachings from ancient wisdom and modern science that suggest how to face the process of death and dying. The ultimate journey challenges us all, and how we approach it is much more than a major personal issue. Those who come to terms with death in deep experiential self-exploration tend to develop a sense of planetary citizenship, reverence for life in all its forms, and spirituality of a universal and all-encompassing nature. Such radical inner transformation might be humanity's only real chance for survival. The Ultimate Journey describes ancient and aboriginal ritual and spiritual practices that help us understand the experience of death, develop effective ways of making dying easier, and integrate it as a meaningful part of life. The book also summarizes modern studies that shed new light on a variety of phenomena related to death and dying, including psycho-spiritual death and rebirth, near-death experiences, and the new expanded cartography of the psyche that has emerged from Grof's fifty years of research of psychedelic therapy, Holotropic Breathwork, and spontaneous psychospiritual crises.

Violence and Responsibility John Harris, 2020-07-20 Originally published in 1980 this book argues that we are all responsible for the harm we could have prevented and explores the effect of this conclusion on a morality which makes fundamental the belief that we ought not to harm others if we can possibly avoid it. A theory of responsibility is developed and defended which has consequences for the way we live as well as for a number of problems in contemporary moral, political and social philosophy, and in jurisprudence. In particular, the author attacks the view that there is a moral difference between killing and letting die and proposes a radical conception of violence. Among other controversial issues covered in the book are neutrality, the ethics of organ transplants and the allocation of scarce resources.

Modern Consciousness Research and the Understanding of Art Stanislav Grof, 2015 In 200 spellbinding pages--including over 100 large, full-color illustrations--Modern Consciousness Research and the Understanding of Art takes readers

on an enchanting tour of the human psyche and a visual tour of the artwork of H.R. Giger. In this book, Grof illuminates themes related to dreams, trauma, sexuality, birth, and death, by applying his penetrating analysis to the work of Giger and other visionary artists.

Dionysius the Areopagite on the Divine Names and the Mystical Theology Clarence E. Rolt,2007-10-01 First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as pseudo-Dionysius because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

The Saturn Myth David N. Talbott,1980-01-01

The Lost Literature of Medieval England R. M. Wilson,2019-07-08 Originally published in 1952 *The Lost Literature of Medieval England* provides an account of lost masterpieces of medieval English literature. The book examines the evidence for their existence and pieces together a fuller understanding of the literary traditions of the period. In more specific detail, the book looks at the concept of Christian epics and religious and didactic literature, as well as the drama and the lyrical poetry of the period.

Disease, Pain, & Sacrifice David Bakan,1968 How shall human suffering be conceptualized? In this succinct, deeply beautiful book, David Bakan has drawn upon recent biological and psychiatric research, as well as biblical sources, in an effort to understand the very condition of human mortality. Bakan has neither aspired to the abstraction of theological statements nor descended to a purely reductionist position. He states, I do not know what divinity is there outside the compass of man's humanity. He is convinced, however, that human suffering is a paradox: for consciousness is a precondition for suffering as well as its management; and bodily disorder, despite the traditional claims for immortality, is biologically inherent in human growth.

The Mark of Cain Ruth Mellinkoff,2023-04-28 For few verses in the Bible is the relationship between scripture and the artistic imagination more intriguing than for the conclusion of Genesis 4:15: And the Lord set a mark upon Cain, that whosoever found him should not kill him. What was the mark of Cain? The answers set before us in this sensitive study by art historian Ruth Mellinkoff are sometimes poignant, frequently surprising. An early summary of rabbinic answers, for examples runs as follows: R. Judah said: He caused the orb of the sun to shine on his account. Said R. Nehemiah to him: For that wretch He would cause the orb of the sun to shine! Rather, he caused leprosy to break out on him.... Rab said: He gave him a dog. Abba Jose said: He made a horn grow out of him. Rab said: He made him an example to murderers. R. Hanin said: He made him an example to penitents. R. Levi said in the name of R. Simeon b. Lakish: He suspended judgment until the flood came and swept him away. After a review of such early Jewish and Christian exegesis, Mellinkoff divides physical interpretations on the mark into three groups: A Mark on Cain's Body, A Movement of Cain's Body, and A Blemish Associated with Cain's Body. Her discussion of these groups is the heart of her study and offers its richest examples of interplay among medieval art and imaginative literature, on the one hand, and biblical exegesis, on the other. Thus in one remarkable tour de force, she shows us how a poetic misprision of Genesis 4:24 - Sevenfold vengeance will be taken for Cain: but for Lamech seventy times sevenfold - made Lamech the murderer of Cain; how there then grew up the legend that Lamech, a hunter, had killed Cain when he mistook him for an animal; how from that, the notion that the mark of Cain was a horn or horns on Cain's head arose (in the poignant formulation of the Tanhuma Midrash: Oh father, you have killed something that resembles a man except it has a horn on its forehead!); and how from that, in the maturity of the legend, there flowered Cornish drama, Irish saga, and stunning reliefs of a dying, antlered Cain in the cathedrals of Vezelay and Autun. Like Genesis 4:15 itself, 'The Mark of Cain' is suggestive rather than comprehensive. Concluding chapters on Intentionally Distorted Interpretations of Cain's Mark and Cain's Mark and the Jews bring the history down to our own day, but Mellinkoff does not claim to have said the last word on the subject. Her achievement is neither documentary nor exegetical but rather demonstrative: she shows us with brilliant economy how the artistic imagination functioned in a world whose intellectual definition was a closed canonical text.

The Old English Exodus John Ronald Reuel Tolkien,Joan Turville-Petre,1981 The Old English Exodus is based on full notes for a series of lectures delivered to a special class in Oxford in the 1930s and 1940s; the notes were retouched in the following decade. It was never intended to be an edition, although the lecturer scrupulously drew up and edited text as basis of his commentary. It is an interpretation of the poem, designed to reconstruct the original (as far as that is possible), and to
